

Masoud Esmaili (IEEE SM'16) received his PhD degree in Electrical Power Engineering from Iran University of Science and Technology in 2010. Currently, he is with West Tehran Branch, Islamic Azad University, Tehran, Iran. His research interest includes power system related topics especially smart grids, power system observability, power system stability, distributed generations, and electricity markets. He has published more than 26 papers in international journals and 27 papers in conferences.

Mohammad Mahdi Mahmoodi received the B.S. degree in Electrical Engineering from the Shahid Beheshti University Tehran, Iran and M.S. degree in Electrical Engineering from Islamic Azad University Science and Research Branch, Tehran, Iran, in 2004 and 2007, respectively. Currently, he is with Saveh Branch, Islamic Azad University, Saveh, Iran. His research interest includes power system stability, Modeling and optimization in power systems.
